Auto

When you send in your e-mail, The Education Team in our Regional Office adds you to that class roster. Each instructor then uses that roster to gauge attendance, and, in the case of web conferences, send out the e-mail invitations.

Web Conference Invitations

Each instructor usually waits until the evening prior to the class to send out these invitations. This way, they will hopefully have most, if not all, of the attendees on their roster.

If you do not have the invitation by the morning of the class, please call the education department at 972-871-2319.

Classroom Invitations

If you are registering for a "classroom" course, please make sure the instructor has your email to ensure you will receive an invitation to the class.
